|                           |                             |
|---------------------------|-----------------------------|
| POLICY VERSION            | materiality-v2              |
| SCENARIO                  | Heightened Aggregation Risk |
| STATUS                    | Final                       |
| BENCHMARK                 | Revenue                     |
| BENCHMARK AMOUNT          | USD 3,165,863.57            |
| PERCENTAGE                | 1.00%                       |
| OVERALL MATERIALITY       | USD 31,700.00               |
| PERFORMANCE MATERIALITY   | USD 19,100.00               |
| KEY-ITEM REFERENCE AMOUNT | USD 9,600.00                |
| POSTING THRESHOLD         | USD 1,000.00                |

The posting threshold is used to accumulate and evaluate identified misstatements. It does not cause transactions to be selected automatically. Key items are determined separately for each audit procedure.

BENCHMARK CANDIDATES
